ACTIVITY NAME:

MOVING ON SNOWSHOES

LEAD UP TO:

Guided Snowshoe

DIVISION:

Primary Division

CURRICULUM CONNECTIONS

Ontario
Curriculum

Health & Physical Education

A1. apply, to the best of their ability, a range of social-emotional learning skills as they acquire knowledge and skills in connection with the expectations in the Active Living, Movement Competence, and Healthy Living strands for this grade

B1. participate actively and regularly in a wide variety of physical activities, and demonstrate an understanding of how physical activity can be incorporated into their daily lives

B3. demonstrate responsibility for their own safety and the safety of others as they participate in physical activities

CROSS CURRICULAR CONNECTIONS:

Social Studies, Grade 2

B1. describe some similarities and differences in the ways in which people in two or more communities in different parts of the world meet their needs and have adapted to the location, climate, and physical features of their regions

B2. use the social studies inquiry process to investigate aspects of the interrelationship between the natural environment, including the climate, of selected communities and the ways in which people in those communities live

B3. identify and locate various physical features and selected communities around the world, and describe some aspects of people's ways of life in those communities

BEFORE YOU GO

Learning Goal

- Students will learn about the history of snowshoeing, as well as the skills and concepts required to participate in this physical activity.

Minds On Activity:

- Consider reaching out and connecting with your local Indigenous Peoples and communities to assist you with ensuring reputable information when learning and sharing the history of snowshoeing along with embedding Indigenous ways of learning that are brought into the classroom environment and curriculum.
- [Indigenous Land-Based Learning, Elementary Teachers' Federation of Ontario](#)

Action Activity

- After learning about the history of snowshoeing, create a 3-column anchor chart for each group with headings: I See, I Think, and I Wonder. Example teacher prompts:
 - Describe what you see in the pictures of snowshoes and people using the snowshoes.
 - When you look at these pictures, what do snowshoes remind you of?
 - Describe how you think snowshoes make it easier to move on snow.
 - After learning about snowshoes, what are some questions that you may still have?
- Have students work in groups of 4-5 to complete the sentences for the anchor chart. Example student responses:
 - I see people wearing equipment on their feet that is helping them stay on top of the snow and preventing them from sinking into the snow.
 - I think about why people started using snowshoes and how it helped them to move from one place to another.
 - I wonder what it would be like for me to participate in snowshoeing. I wonder if it would be easy or hard for me.
- When completed, post the anchor charts, and have groups rotate around the class for students to review.

WHILE YOU ARE THERE

Schools on Snow Activity

- Students will explore snowshoeing trails on a unique adventure with picturesque views of a snow-covered environment. Experienced guides will walk your class through everything from snowshoe rentals and equipment usage, to providing opportunities to explore different trails for a variety of abilities.
- Students will be provided opportunities to practice skills that support positive interaction with others in small-group and team situations throughout the guided snowshoe activity.

ONCE YOU GET BACK

Consolidation Activity

- Lead the class in a group discussion about the skills and strategies that were required to be successful during the guided snowshoe activity. Example student responses:
 - *I can dress appropriately during the winter season to successfully participate and enjoy outdoor activities.*
 - *I can adjust how I move on a snow surface with and without snowshoes.*
 - *I can position my body when I am moving on a hill/slanted surface.*
 - *I know how to keep a safe distance from other snowshoers.*
 - *I can move with control at a slow or fast pace.*
 - *I can follow a guide through a trail with a large group.*
- Review the terms 'stars' and 'stairs' with students:
 - Stars - Skills that you are successful with and come easy to you.
 - Stairs - Skills that you have a challenge with. You need more time and practice to improve.
- Provide students the opportunity to think about their experience during the guided snowshoe activity.
- Have students record on a sheet of paper their personal 'stars' and 'stairs' reflection on the skills and strategies used during the guided snowshoe activity.
